

Veta S40

Version 1.4
March 17, 2005

Veta S40 is a Series 40 Java midlet for Nokia 6230 phones. It allows controlling your Mac using Nokia Series 40 phone remotely via Bluetooth.

System Requirements

1. Mac OS 10.2 or later.
2. Bluetooth adapter (for example D-Link DBT-120 USB Bluetooth Adapter).
3. Nokia 6230 phone.
4. Romeo 0.9.1 or later.

Registration

Veta S40 is shareware. In order to unlock the program, you have to pay the registration fee which is \$8 US. Currently, Kulesh Software can only accept payments in US currency. Send the payment via PayPal (www.paypal.com) to register@kulesh-software.com. A full version of the software will be emailed to you within 24 hours. Please make sure that the email you are using for PayPal is a valid email address. If you have not received your copy within 24 hours, email support@kulesh-software.com (possibly using a different email address).

International customers:

The easiest way to pay for Veta S40 is via PayPal.com.
Kulesh Software will also accept an international money order payable in US dollars.
The mailing address is

Kulesh Software
41575 Wessel Drive
Sterling Heights, MI 48313 USA

US customers:

If you are a US resident, the licensing fee can be paid by check drawn on a US bank or money order.
Mail your check or money order to

Kulesh Software
41575 Wessel Drive
Sterling Heights, MI 48313 USA

Residents of Michigan, please add 6% sales tax to your payment.

Please be advised that if you are using an eCheck, it takes PayPal 4-5 days to clear it.

Legal

The Veta S40 software and the accompanying materials are provided "AS IS" without warranty of any kind. IN NO EVENT SHALL THE AUTHOR(S) BE LIABLE TO ANY PARTY FOR DIRECT, INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, INCLUDING LOST PROFITS, ARISING OUT OF THE USE OF THIS SOFTWARE AND ITS DOCUMENTATION, EVEN IF THE AUTHOR(S) HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. The entire risk as to the results and performance of this software is assumed by you. If the software is defective, you, and not Kulesh Software nor Victor Kulesh, assume the entire cost of all necessary servicing, repairs and corrections. If you do not agree to these terms and conditions, you may not install or use Veta S40 software.

Obtaining Veta S40

Veta Universal is available as a download from the following web sites:

<http://kulesh-software.com>

Veta S40 is distributed as a disk image called "VetaS40.dmg". Download the file and mount the disk on your Desktop. The disk image contains three files: "VetaS40.jad", "VetaS40.jar" which are the file to be installed on your phone and the User Manual - this file.

Installation

Please, follow the installation instructions very carefully. By installing the software you agree to the terms and conditions stated above.

Download and install Romeo 0.9.1 or later from Arboreal Software.

Upload the Veta S40 midlet to your phone. (Note: Bluetooth File Exchange can not properly install midlets). Use software that is capable of installing midlets to Series 40 phones, such as "Phone Director" from <http://www.macmedia.sk/pd.htm>. If installed correctly, Veta S40 can be found in Applications | Collection.

Start Veta S40 on your phone. It will ask to allow network connection - click YES; this is a network over Bluetooth between the phone and your Mac and you will not incur any GPRS charges.

On Romeo, click Options. **Make sure that you are using Port 2.** Click Select phone... and choose the phone. At this point Veta S40 should be running on the phone. Otherwise Romeo will fail to connect. After a successful connection Romeo will remember the phone and you only need to click the Connect button to establish a connection.

At this point Veta S40 can be used to control your programs!

Use the joystick keys to navigate the menus. Joystick up and down moves you to the next menu item. Joystick press is equivalent to a mouse click - it either loads another menu level or brings a dialog with instructions. To dismiss a dialog press the "Back" button using the right softkey on your phone.

An demo version of Veta S40 is limited time-limited. See the registration section of this document about obtaining the full version of the software.

Bugs / questions / suggestions: send email to Kulesh Software at support@kulesh-software.com.
